

# BARBLESS WIRE

## CHARACTERISTICS

### SOFT STEEL

2.40 mm wire diameter

### COATINGS

Heavy galvanized

### PACKING

Wood structure with handle 200 m roll length

Without barbs, doesn't harm the animal's fur.

## INSTALLATION

1. The spacing between the posts will range from 3 to 5 m depending on the quality of the posts and exposure to dominant winds.
2. Heights and number of wires in the table.
3. Fixing the barbless wire with staples.

Animal	No. of wires	Height (cm)
Horse	2	80   140
Mare and foal	3	50   90   130
Stallion	4	50   90   130   170

Wire heights can range  $\pm 10$  cm for the same animal.
