

# ReWood

## COMPOSITE PRIVACY KIT

Made in France

85%  
Recycled materials

100%  
recyclable

Rot and mould  
resistant

The ReWood privacy kit is **made up of 85% recycled material** and is designed for Hércules® panels. We've aimed to create the first privacy system that uses wood composite for both the vertical slats and the v slats, thus creating a uniform aesthetic.

You can also install this kit over existing enclosures, even if there is a concrete plates, thanks to the optimized dimensions of the bottom fastening profile.

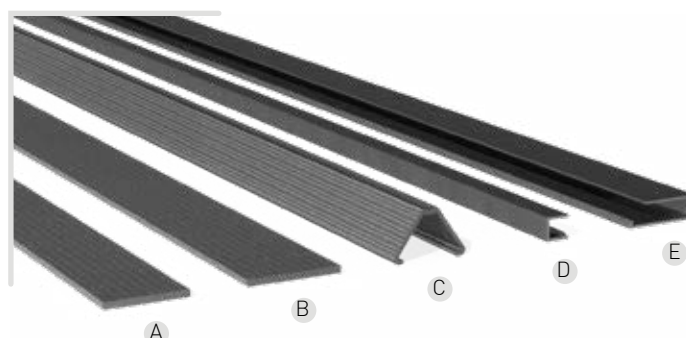

It comes in 3 different composite colours, with the top and bottom aluminium profiles matching the associated RAL colour.

### CHARACTERISTICS

Compatible panel length (mm)	Compatible panel height (mm)	Available Colours
2,500	1,025	<div>Black</div> <div>Mocha</div> <div>Anthracite</div>
	1,225	
	1,525	
	1,725	
	1,925	

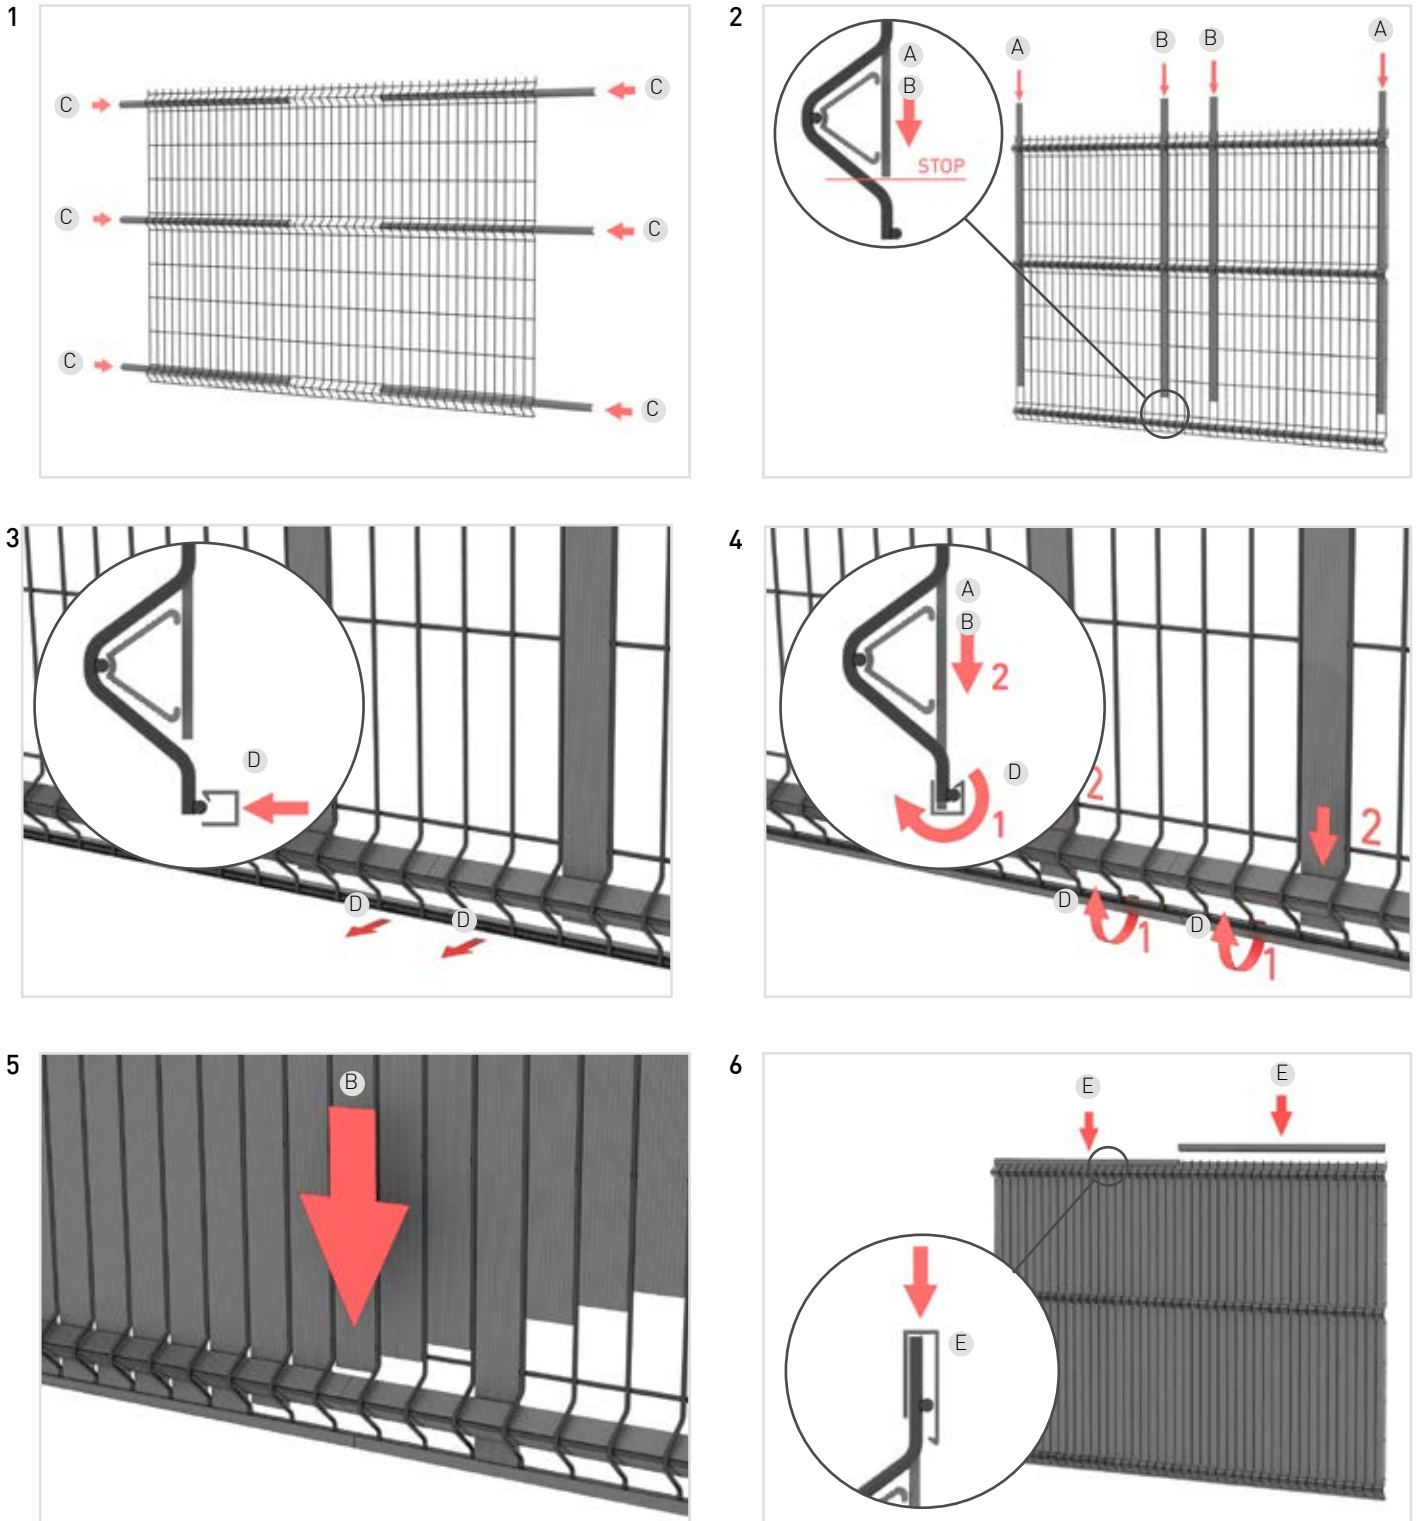

### COMPONENTS

Elements		Units
A	Slats 42 mm	2 units
B	Slats 48 mm	43 units
C	V slats	4 units for heights ≤ 1.20m 6 units for heights ≥ 1.50m
D	Fastening profiles	2 units
E	Finishing profiles	2 units

## INSTALLATION

Did you know that you can also install the ReWood kit by braiding the vertical slats? You have the choice to do it with or without the V slats. It's a matter of aesthetics, the time it takes to install, but also a little trick to help hold the slats better on 1.20m high panels.

## WARNING

All kind of hiding system installed on a fence can be potentially damaged by the wind effects. We hereby decline all kind of responsibility over the damages caused by the wind, whether they are direct or indirect.
