

WELDED MESH PANEL

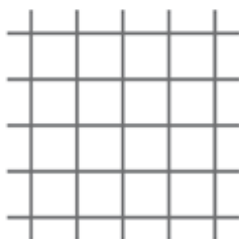

CHARACTERISTICAS

Panel with different options available including the mesh coating options (ask for conditions). It's used in the construction of cages, enclosures and machine security.

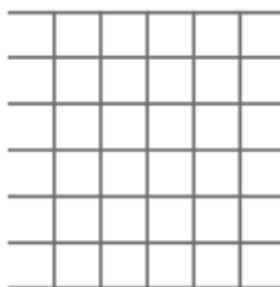

TYPE OF PANEL SPIKES

- There are three welded mesh panel types:

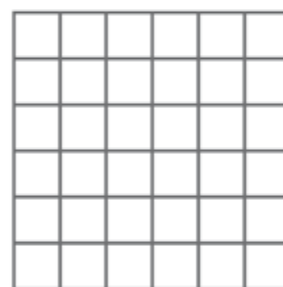

D0. Spikes at all four sides of the panel

D2. Spikes at two opposite sides of the panel

D4. No spikes

Other dimensions available upon request.

FINISHING FEATURES

WIRE COATINGS

- Grey wire
- Commercial galvanized wire (Class D) EN 10244-2
- ZnAl[®] wire

Galvanized

ZnAl

PANEL COATINGS

- Post-Galvanized panel
- Coated panel
