

base

HÉRCULES® ALUMINIUM BASE

For Hércules® posts

🌐 LANGUAGE ▼

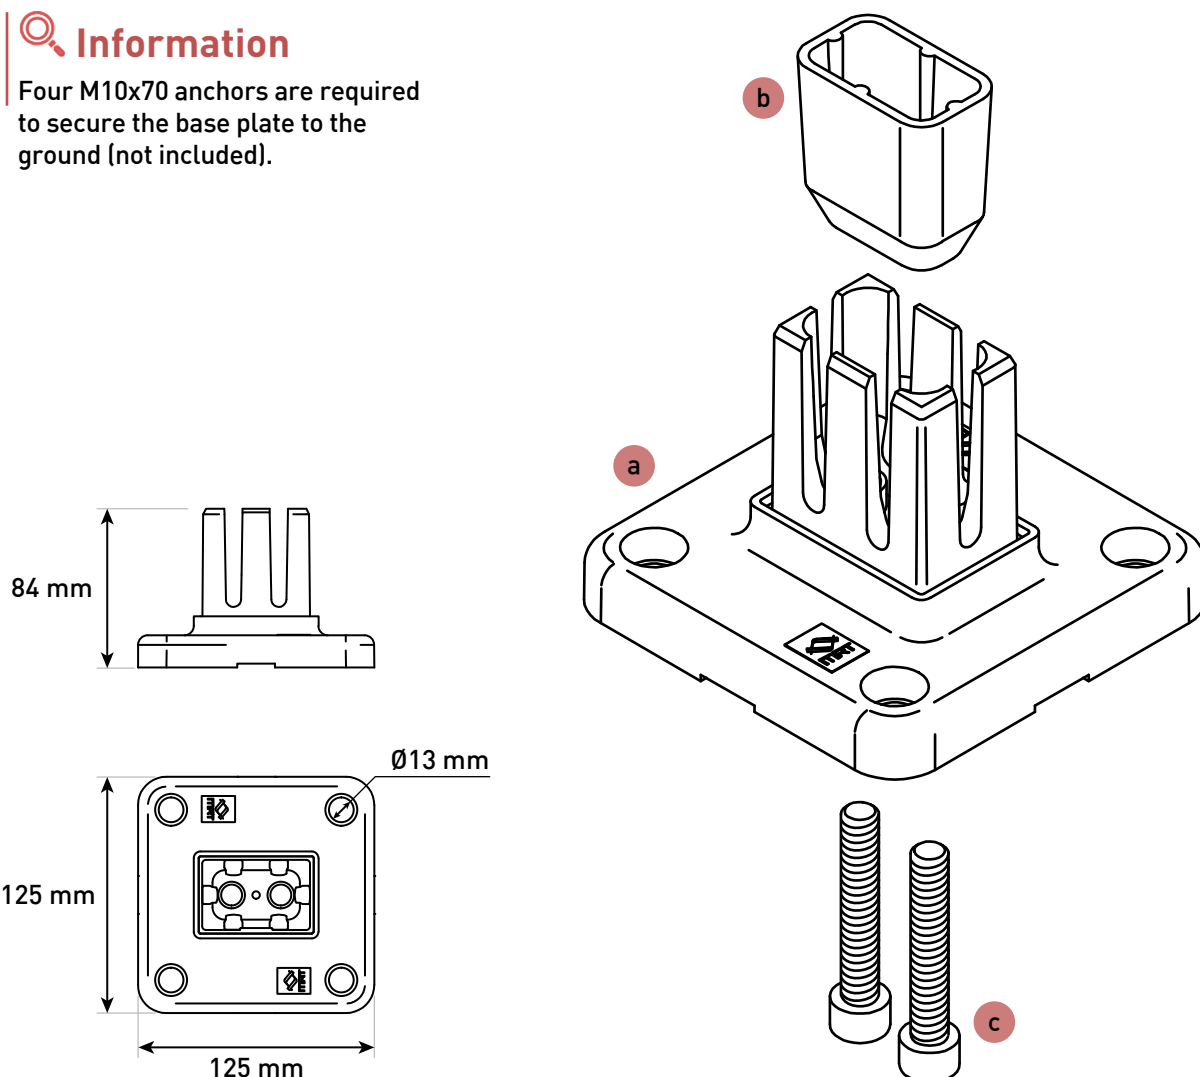

ESPAÑOL
FRANÇAIS
ENGLISH

Components

- a** Base **b** Wedge **c** M10x60 socket head screws

🔍 Information

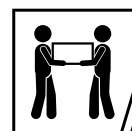

Four M10x70 anchors are required to secure the base plate to the ground (not included).

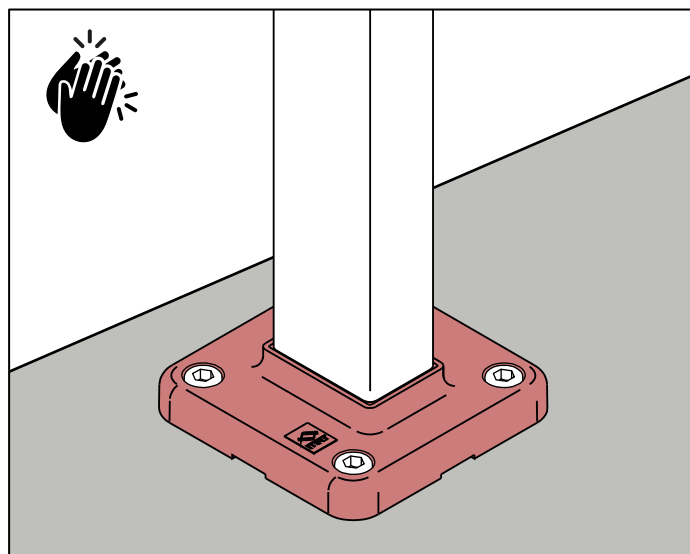

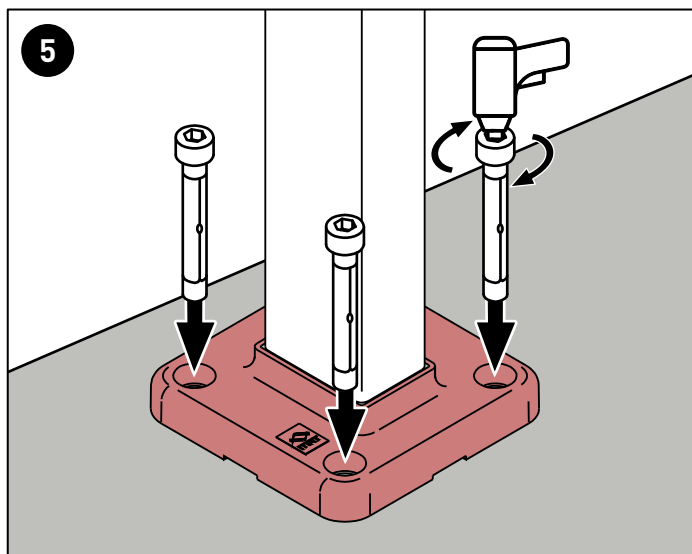

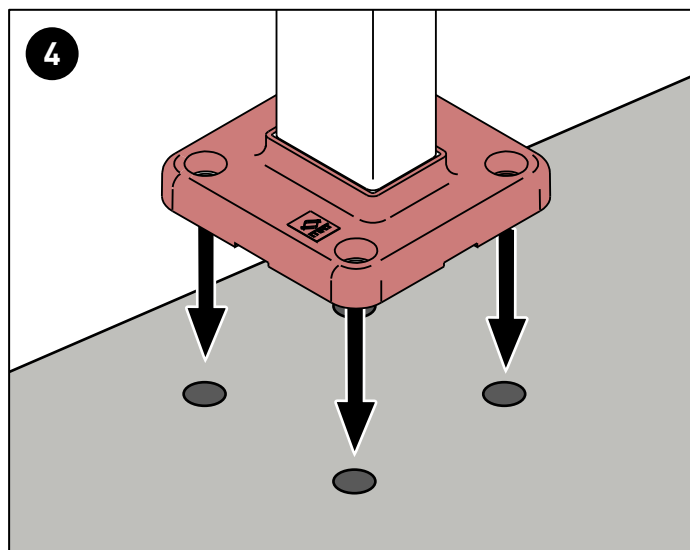

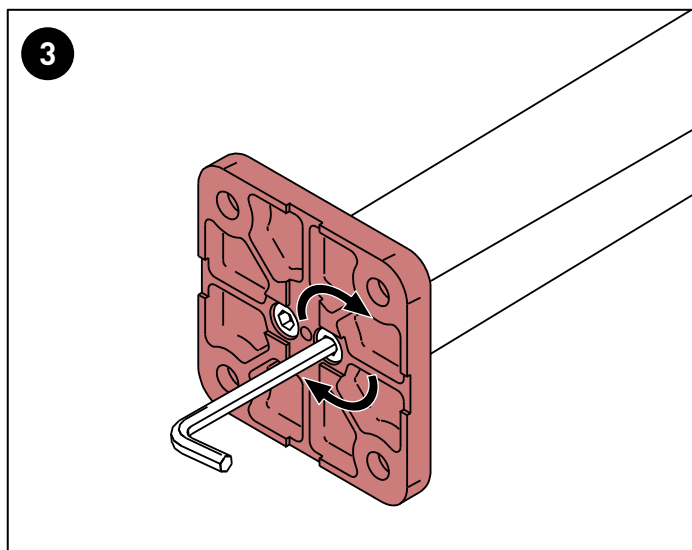

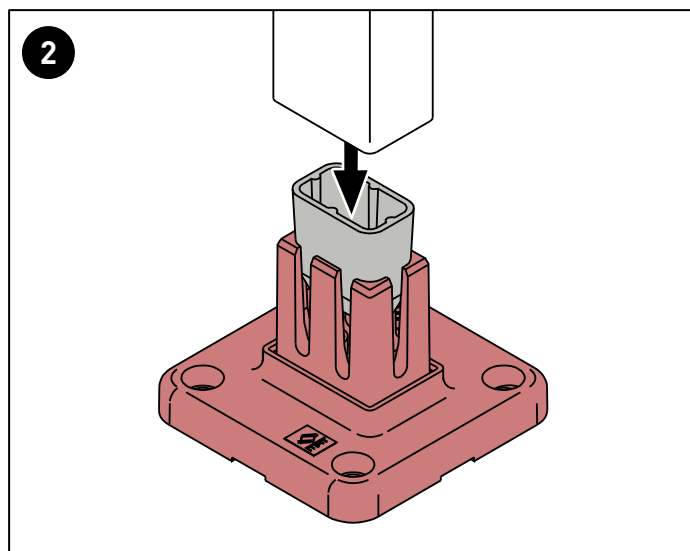

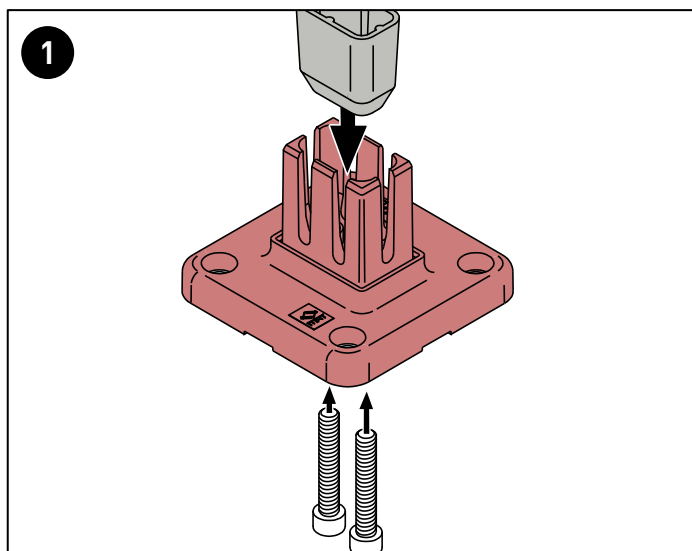

⚠ Warning

We recommend its use on fences up to 1.5 m high.

The installation of privacy screening systems or other elements that create a sail effect may reduce the fence's resistance to wind loads. For this reason, we do not recommend their installation on fences fitted with base plates.

Installation

Hércules® Post

At moreda.com, you will find detailed information about the Hércules® post, including its characteristics, installation, compatible products and much more.
